Move along the board and match which player wrote which answer to fun, everyday and not-so-everyday questions. Be the first player to reach the WIN! Space and correctly match at least two players' answers to win the game.

NAME 5

Can you name the five Great Lakes in 30 seconds? Sure, but can you name five things you shouldn't say to your boss? That's the idea behind this quick-thinking team trivia game. When it's your team's turn, roll the die and move your pawn that many spaces. You'll then draw a card and you and your teammates will try to name 5 things that fit a category within 30 seconds. If you can, you get another turn. If not, it'll be your opponents' turn.

Most of the spaces on the board are solid colors, which determine what category is in play. For example, if you land on a red space, you play the red category. However, there are four kinds of special spaces: All Play (both teams get a different category, and the first team to name 5 things in their category rolls the die and takes the next turn), Flip Flop (teams alternate giving answers until someone can't think of another), Wild (your team gets their choice of the five categories on the card) and Double Down (you have to pick two of the 5 categories and name five things in both those categories, all in 30 seconds).

When you reach the big Name 5 space in the center of the board (which you have to do by exact count), you'll have the chance to win the game. You and your team will have 90 seconds to name 5 things in each of the 5 categories on the card.

Whether you're answering hilarious trivia, performing ridiculous stunts, or obeying silly rules, **Quelf** will inspire you to use your creativity, wit and sense of humor in ways you've never imagined.

As you move around the game board, as one of eight quirky characters, crazy things start to happen. Your friends start talking strangely. Your mom's face is wrapped in toilet paper. Your dad is acting like Dracula. And you are reciting a poem about your armpits.

Adult: ages 12+; 3-8 players or teams

APPLES TO APPLES

The party game **Apples to Apples** consists of two decks of cards: *Things* and *Descriptions*. Each round, the active player draws a *Description* card (which features an adjective like "Hairy" or "Smarmy") from the deck, then the other players each secretly choose the *Thing* card in hand that best matches that description and plays it face-down on the table. The active player then reveals these cards and chooses the *Thing* card that, in his opinion, best matches the *Description* card, which he awards to whoever played that *Thing* card. This player becomes the new active player for the next round.

Once a player has won a pre-determined number of *Description* cards, that player wins.
