

**Perimeter Church Student Ministry
2 yr. Residency Program**

Interested in Student Ministry? The Junior and Senior High Staff at Perimeter Church are accepting applications for two-year residents. There's a great chance you already have some fantastic options lined up for the next 730 days of your life, so why check us out?

1. *We're passionate about discipleship.* Yeah, we do a lot of programs, we play a lot of music, we've even been known to do the disgusting food games every once in a while. But we believe life-on-life discipleship is straight up rocking. We want to see trained leaders pouring into the lives of the younger generation, teaching them truth, equipping them to be missional, praying with and for them. It's not easy, we don't do it perfectly, but we believe in it.
2. *We think students can lead.* In fact, we stake our reputation on it. Every summer hundreds of students from around the Southeastern U.S. come to Perimeter to take part in Rush, a conference led entirely by our students (check it out – www.perimeter.org/rush). We believe in giving students opportunities to explore the gifts and passions God has given them, to taste what it feels like to use their skills in Kingdom work. Students engaged in ministry...it's the jam.
3. *We are dedicated to community transformation.* We want to see the Kingdom of God invade our community, batter down its walls, and beat the snot out of it. We're sick and tired of the devastation around us: broken marriages, abused kids, hopeless and addicted teens. We want to see our neighbors encounter the gospel; we want to see lives restored. So we operate a student community center called "The Bricks," we take students on local and international missions journeys, and we partner with various campus ministries to reach deep in the public high schools of our area.
4. *We need you.* And we're not embarrassed to admit it. We love the energy you bring, the perspective you contribute, the passions you inspire us with. We need your unique skill set and your fresh ideas. We even need your weird hobbies and your affinity for toe socks. We need you!

For those of you who either aren't graduating or aren't looking for a two year commitment, we also offer multiple summer internships in Jr. and Sr. High as well. These are a ten-week immersion in practical youth ministry, and they allow you to experience a little bit of everything that goes on in our ministry. We still have a few spots available, but they are filling up quickly!

For more information, call Ashley at 678-405-2141 or email her at ashleyw@perimeter.org.
